

Name:

Course:

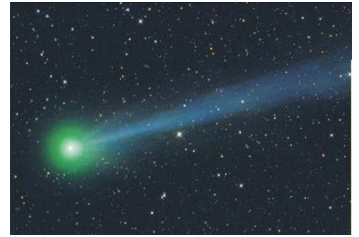

1 Write *planet*, *comet* or *asteroid* in the correct space:

.....

.....

.....

2 Complete the table about the layers that make up the planet Earth:

Layer type	Name	Thickness	Characteristics
Outer layer			
Middle layer			
Inner layer			

3 Complete the following sentences about the Earth's movements:

- The Earth takes to do a complete orbit of the Sun.
- The Earth takes to complete one full turn on its axis.
- The Earth turns on itself in a movement called
- The Earth revolves around the Sun in a movement called

4 How does the Moon differ from the Earth because of the absence of atmosphere?

.....

5 In what phase is the Moon in these situations?

- The visible side of the moon is illuminated:
- The visible side of the moon is not illuminated:
- The right side of the Moon is illuminated:
- The left side of the Moon is illuminated:

Name:

Course:

- 1** Visit the following website dedicated to the Solar System and do the proposed activities:

<http://www.tiching.com/683396>

A) Click on the “Story of the Universe” section and read the text:

- How old is the Universe?
- How was it formed?

B) Click on the “The Sun” section and read the text:

- Everything the Sun emits is good for the inhabitants of the Earth? Why?
- How do solar eclipses occur?

C) Click on the “Planets and moons” section and read the text:

- What does the Kuiper Belt contain?
- Why is Venus hotter than Mercury despite being further away from the Sun?
- Why is Mars known as the red planet?
- Which planet has the most satellites? How many does it have?

Name:

Course:

1 List the continents and oceans on our planet:

- Continents:
-
- Oceans:
-

2 Define the elements that appear on a map:

Element	Definition
Title	
Scale	
Key	
Orientation	

3 Identify these maps according to information they provide:

..... map

..... map

..... map

4 Name the four cardinal points and explain how you would find your way using the Sun and the stars:

.....

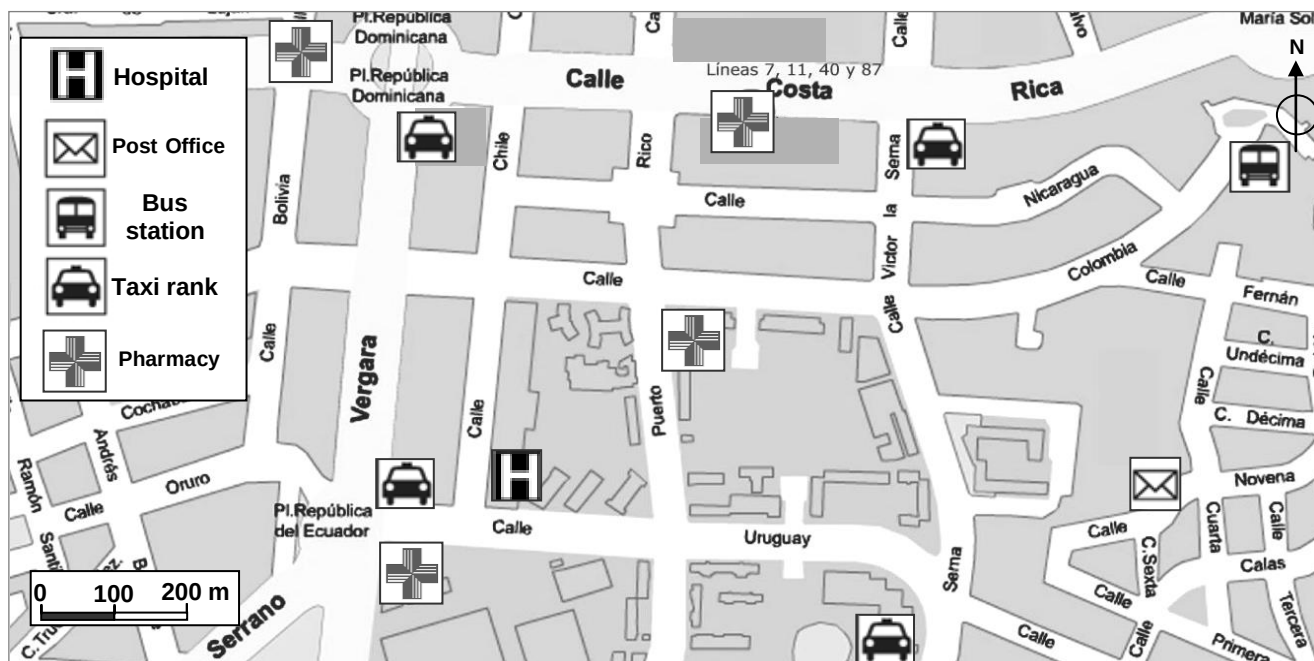

.....

.....

Name: Course:

Name: Course:

1 Look at this street map and answer the following questions:

- What do the following conventional symbols represent?

- Locate the Hospital. What route do you have to take to get from the Hospital to the Bus Station?

- What route can you take to go from the Bus Station to the Post Office?

- What do we find south of República Dominicana Square?

- How many taxi ranks are shown on the map?

- Locate a pharmacy and say where it is

- What is 2 cm on the map equivalent to in reality?

- Cuarta Street is 4 cm long on the map. How long is it in reality?

- Uruguay Street is 8 cm long on the map. How long is it in reality?

Name:

Course:

1 Complete the sentences with the following words:

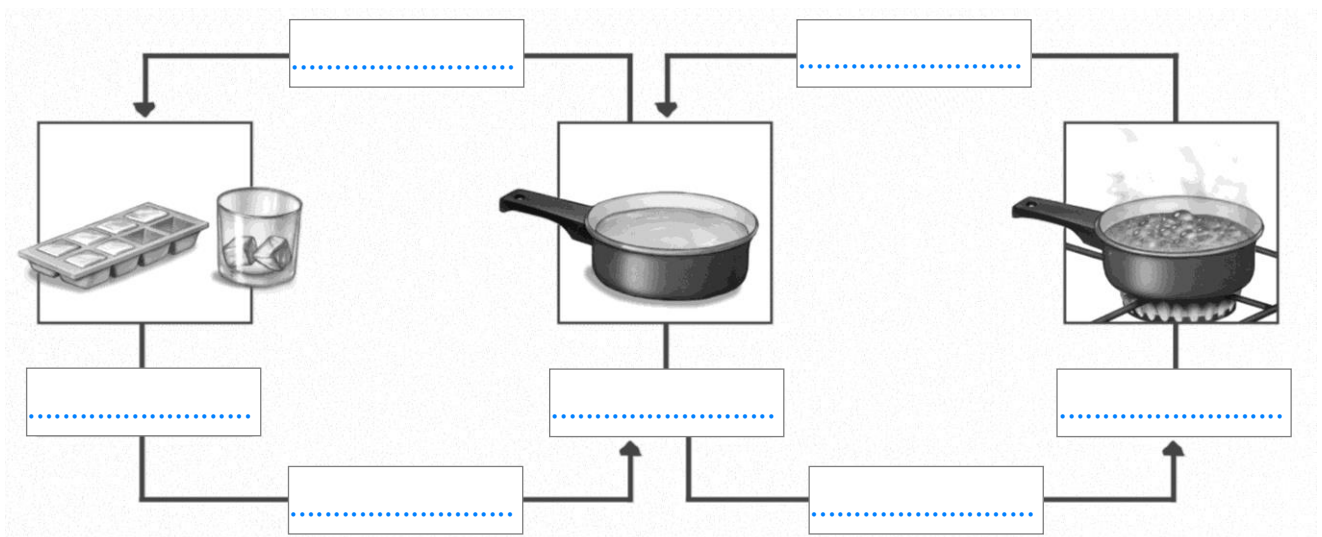

troposphere – Sun's rays – air – atmosphere – ground

- The is the name given to the layer of air that surrounds the Earth.
- The atmosphere prevents the Earth from getting too or too cold and it blocks most of the
- is a mixture of several gases: nitrogen,, carbon dioxide, water vapour and
- The layers of the atmosphere, ordered according to their proximity to the are the, the, the and the thermosphere.

2 Match the places where water is found with the type of water that they contain:

rivers		seas
lakes	fresh water	poles
oceans	sea water	underground

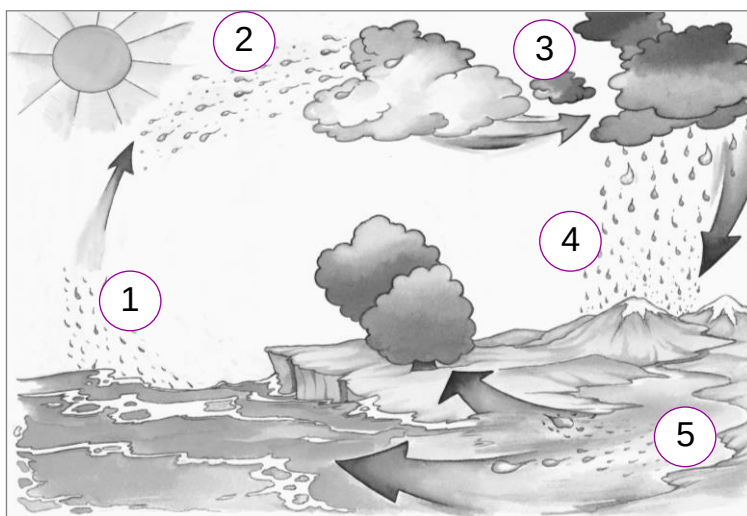

3 Write the correct words in the spaces in this diagram about the different states of water:

Name:

Course:

1 Write the stages of the water cycle and explain in your own words:

1

.....
.....

2

.....
.....

3

.....
.....

4

.....
.....

5

.....
.....

2 Visit this website about water pollution and answer the questions:

<http://www.tiching.com/683414>

– What is water pollution?

.....

– What can you do to save water and avoid polluting it?

.....

.....

Name:

Course:

1 Say whether it is a *natural landscape* or a *humanised landscape*:

- A landscape with rivers, forests and roads:
- A landscape with rivers, forests and mountains:

2 Draw the outline of a mountain and locate these features:

peak

path

side

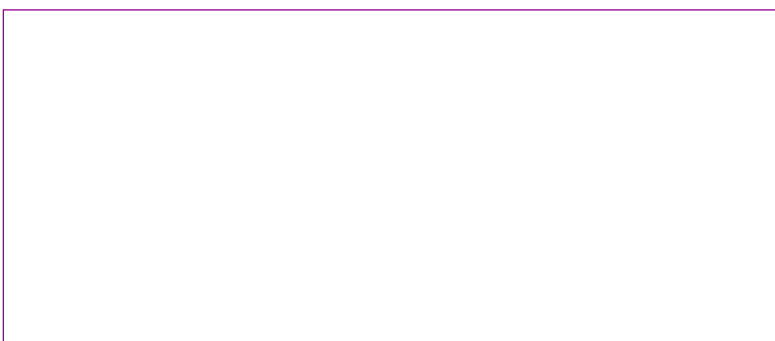

forests

foot

river

meadows

valley

3 Explain the type of work done by people who live on the plains:

.....

.....

.....

4 Locate the following relief forms on the picture:

1 island

2 cape

3 gulf

4 isthmus

5 bay

6 strait

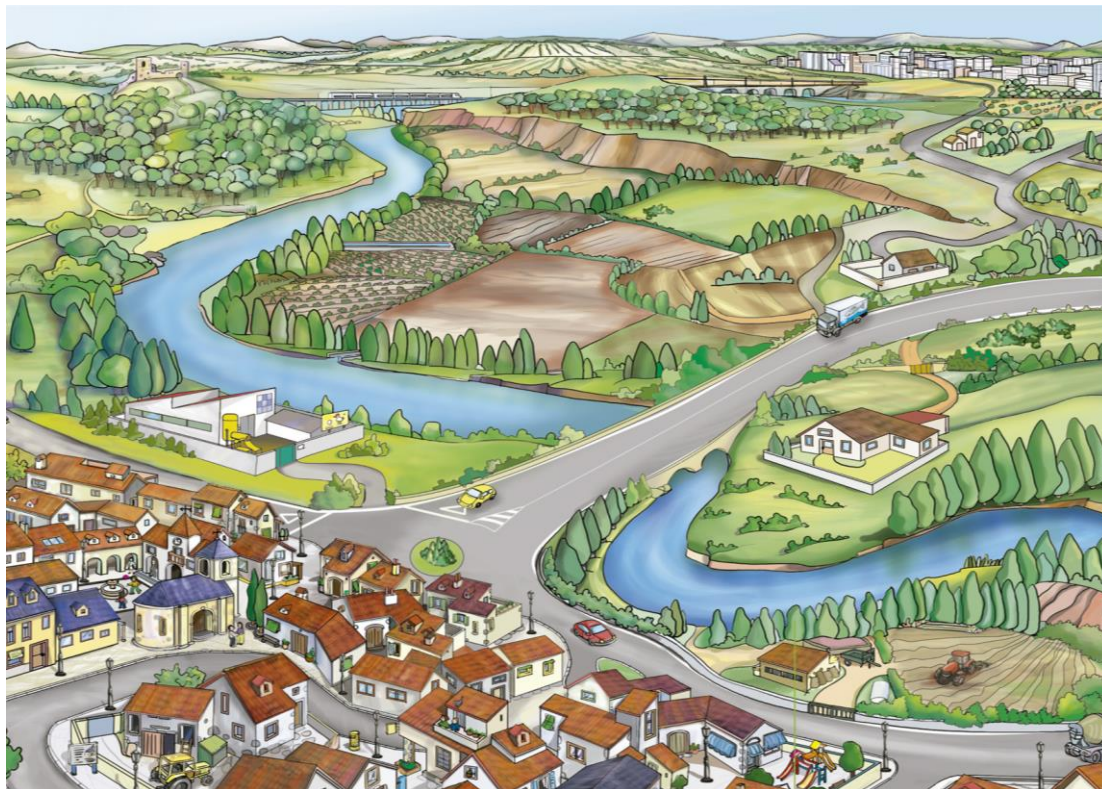

7 peninsula

8 archipelago

Name:

Course:

1 Look at this picture and answer the following questions:

– Write the name of some natural features in this landscape:

.....

– Now write the name of some man-made features:

.....

– Is there any point on the landscape where pollution is being generated? Where?

.....

– Can you identify any area that has suffered deforestation? Explain why.

.....

.....

– Do you think there is any area that could be protected? Which one? Why?

.....

.....

Name:

Course:

- 1** Write three household chores that children can do, three that only parents can do, and three that they can do together:

Parents	Children	Parents and children

- 2** Indicate which member or members of the educational community these sentences refer to:

- The help the students to learn.
- The staff help with the functioning of the school.

3 Indicate which products are made in each type of industry:

textile

food

automotive

chemical

.....			
.....			
.....			

4 Write the name of the type of service that these jobs belong to:

- Includes teachers:
- Includes doctors and nurses:
- Includes chefs and waiters:
- Includes shop assistants and retailers:

Name:

Course:

1 Look at the following video and answer the questions:<http://www.tiching.com/683434>

– Explain the process of making a chair:

.....

.....

– What is the person in the picture doing?

.....

2 Explain the process and the people involved in the journey of milk from the moment it is obtained to when it reaches the supermarket:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Name:

Course:

1 Write whether the following events correspond to the *past, present or future* in your opinion:

- Studying sixth grade:
- The first day of school:
- Studying third grade:

2 Match the measurements of time in the top row with their equivalent underneath.

60 seconds

7 days

12 months

100 years

1 century

1 year

1 minute

1 week

3 Identify the type of source these images belong to:

.....

.....

.....

4 Write whether these statements are true (T) or false (F):

- ☐ A generation includes people from different eras.
- ☐ A timeline starts with the most recent events.
- ☐ A family tree shows relationships between family members.

5 Which of these buildings provide information about the past?

Name:

Course:

- 1** Write the name of the celebration that corresponds to each date.
If you do not know, look for the information.

- 23 April:
- 19 March:
- 15 August:
- 1 November:
- 8 December:
- 25 December:

- 2** Visit these websites to take a virtual tour of Salamanca and Toledo.
Then complete the following sentences:

<http://www.tiching.com/676904>

<http://www.tiching.com/676905>

- The virtual tour of starts at a bridge.
- In there is a called Santa María la Blanca.
- In there is a cloister and a convent dedicated to
- The church of Cristo de la Luz was previously a in
- In the old cathedral of there is a sculpture of the
- In the church of San Juan de los Reyes in there is a

- 3** Look at the following old toys and describe their appearance, particularly their shape and colour:

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

- 4** Discover other types of old toys on the following website. Draw them and describe them in your notebook:

<http://www.tiching.com/683443>

Name:

Course:

1 Write which aspect of the past these phrases refer to: *facts, location, chronology or causes*.
